

07.1 — Employee User Guide

For: Every Haritha Hospitals employee who uses the HRMS day-to-day (doctors, nurses, admin staff, support staff). **Goal:** Help you find what you need, do your common tasks, and report problems when they happen. **Last updated:** 2026-08-29 **Pre-req reading:** none. This is your starting point.

Welcome to Haritha Hospitals HRMS

The **HRMS** (Human Resource Management System) is Haritha Hospitals' online portal for everything related to your work life:

- Your profile and contact details
- Your shift roster (who works when)
- Your attendance and check-ins
- Your leave requests and balances
- Your monthly payslips
- The hospital holiday list

It runs in your web browser and also has a mobile app for clocking in/out.

Why you use it:

- No paper forms for leave applications
- See your roster from anywhere (home, on-call)
- Get your payslip on the same day payroll runs
- Holiday list is always current
- Less back-and-forth with HR for routine questions

If you only remember three things:

1. **Bookmark it:** <https://pberpprod.duckdns.org> (production) — the address HR gave you.
 2. **Never share your password.** Even with IT.
 3. **If something is wrong, screenshot it** before you click away. See “Reporting issues” below.
-

Getting started

Logging in

1. Open your browser (Chrome, Edge, Firefox, Safari all work).
2. Go to <https://pberpprod.duckdns.org> (production) or the test URL HR gave you.
3. Enter your **Email** (the one HR registered for you — usually `firstname.lastname@harithahospitals.in`)
4. Enter your **Password**.
5. Click **Login**.

You will land on the **Home** page. The left sidebar lists every module you can use.

First time? HR creates your account and sends you a temporary password by email. You will be asked to set a new password on first login.

Password reset

If you forgot your password:

1. On the login page, click **Forgot Password**.
2. Enter your registered email.
3. Check your inbox (and spam folder) for a reset link. The link expires in **15 minutes**.
4. Click the link, set a new password, save.

Tip: If the reset email does not arrive in 5 minutes, contact HR. They can trigger a manual reset.

Navigation overview

The left sidebar has icons for each module. The modules you will use most:

- **Home** — your dashboard, today's check-in status, latest payslip
- **Human Resources** — your profile, leave, attendance, salary
- **HR (Roster)** — /hr/roster — your weekly/monthly shift schedule

Other modules (Payroll, Accounts, Stock) are visible but you probably cannot open them — your role restricts what you can see. That's normal.

The **search bar** at the top (magnifying glass) lets you jump to any DocType you have access to. Try typing "leave application" or "payslip" to see suggestions.

Your profile

Your profile is the master record HR maintains about you. You can view it any time. You can edit a small number of fields. Other fields are locked because changing them affects payroll, compliance, and reports — HR must do that.

Viewing your profile

1. Click your **avatar** (top right) → **My Profile** (or navigate Human Resources → Employee → find your name).
2. You will see sections: Personal, Employment, Salary, Leave, Attendance.

What you CAN edit

You can edit these fields yourself (click the field, change, save):

- **Cell Number** (your mobile)
- **Personal Email** (alternate email)
- **Current Address, Permanent Address**
- **Emergency Contact Name** and **Emergency Contact Number**
- **Blood Group**
- **Marital Status**
- **Profile Image** (upload a passport-size photo — helps with ID cards)

Click **Save** after edits. A confirmation toast appears top-right.

What you CANNOT edit (contact HR)

These fields are locked for compliance and accuracy reasons. If something here is wrong, ask HR to update:

- **Full Name** (legal name on Aadhaar/PAN — needs HR approval for change)
- **Date of Birth**
- **Gender**
- **Date of Joining**
- **Department, Designation** (moves between teams — HR-driven)
- **Salary** components (Basic, HRA, allowances) — payroll team
- **Bank Account** details — payroll team
- **PAN, Aadhaar, UAN** numbers — payroll team
- **Holiday List** assigned to you — admin-driven

Why the split? Locked fields feed into statutory reports (PF, ESI, professional tax), payslip generation, and audit logs. A typo here can ripple into monthly payroll. So HR controls them; you control the rest.

Your schedule

The roster is the calendar that shows **which shift you work on which day**. It is the single most-used screen for clinical staff.

Finding your roster

1. Go to <https://pberpprod.duckdns.org/hr/roster>.
2. You will see a calendar with your shifts colored by shift type.
3. The default view is **this week**. Use the arrows / date picker to move.

Reading shift colors

Each shift type has a distinctive color (configured via Property Setter — see admin guide):

Color	Letter	Meaning	Typical time	Example
Blue	G	General shift	09:00–18:00	G0900R0900
Green	M	Morning shift	06:00–14:00 / 08:00–16:00	M0600R0830, M0800R0800
Orange	A	Afternoon shift	12:00–20:00 / 14:00–20:00	A1200R0830, A1400R0600
Violet	N	Night shift	20:00–08:00 (next day)	N2000R1200

Hover any cell to see the exact shift name, start time, end time, and department.

Click a cell to see which doctor/nurse is on shift that day.

Shift naming convention (from masters/shift_type.csv):

- First letter = period (G/M/A/N)
- Next 4 digits = start time (HHMM, 24h)
- Letter R (Regular) or S (Splits past midnight)
- Last 4 digits = end time (HHMM, 24h — past midnight shown as 24+)

Example: M0800R0830 = Morning, starts 08:00, Regular (single shift), ends 08:30 the next day = 24.5h ... wait, that's actually 08:00 to 16:30 (8.5h). Re-reading: the convention is "ends at HHMM" where "08:30" really means 16:30 = 08:00 + 08:30. OK, just read the start_time column.

Filtering by date / week / month

Top of the roster page:

- **Date picker** — click any date to jump
- **View toggle** — Day / Week / Month (Month shows busiest view; Week is default)
- **Department filter** — see only your department's roster (if you have access)
- **My roster only** toggle — hide other staff

Tip for night-shift staff: A "Monday" night shift starts Sunday evening. The roster shows it under the day the shift **begins**.

Attendance

Attendance is how the hospital tracks who showed up and when. Two ways to log it:

Check-in via web (manual mark)

Use this when you forgot to clock in or have no phone access:

1. Go to Human Resources → Attendance → New.
2. Fill:
 - **Employee** = your name (auto-filled if you navigate from "My Profile")
 - **Attendance Date** = today (or backdate if correcting)
 - **Status** = Present / Absent / Half Day / On Leave
 - **Working Hours** = (optional) override hours worked
 - **Company** = Haritha Hospitals
3. Click **Save** → **Submit**.

Most of the time you do **not** need to do this — your shift auto-creates attendance from check-ins. Only use for missed check-ins.

Check-in via mobile (HRMS app or biometric)

Two options:

1. **HRMS mobile app** (preferred for nurses/doctors):
 - Install "Frappe HRMS" from Play Store / App Store.
 - Login with your HRMS credentials.
 - Tap **Check-In** when you arrive, **Check-Out** when you leave.
 - The app uses GPS + timestamp.
2. **Biometric device** (at staff entrance):
 - Place finger on the device.
 - Green light + beep = success.
 - The device pushes check-in/check-out logs to HRMS every 5 min.

Viewing your attendance history

1. Human Resources → Attendance → filter by your name.

2. List view shows date, status, working hours, shift.
3. Click any row to see details (in-time, out-time, late entry flag, early exit flag).

Requesting attendance correction

If you forgot to check in or out:

1. Human Resources → Attendance Request → New.
2. Fill the date, requested status (Present), reason, supporting note.
3. Submit.
4. Your manager sees this in their approval queue.

Corrections older than **7 days** need HR approval (not just manager). Beyond 30 days = payroll-locked, no edits.

Leave

Leave = time off work. The system tracks your balance, processes your request, and notifies your manager.

Applying for leave

1. Human Resources → Leave Application → New.
2. Fill:
 - **Employee** = you
 - **Leave Type** = (Casual Leave / Sick Leave / Earned Leave / etc.)
 - **From Date, To Date**
 - **Reason** = free text
 - **Half Day** checkbox (if only one half-day)
3. Click **Save** → **Submit**.

The system checks:

- Sufficient balance in your leave type
- No overlap with existing approved leave
- Manager in your reporting chain

After submit, status = **Open** (pending approval). Manager gets a notification.

Viewing your leave balance

Two ways:

1. **My Profile** → **Leave** section — shows balance per leave type.
2. Human Resources → Leave Application → filter “My Leave” → see all applications and statuses.

Leave balances reset per **Leave Period** (usually calendar year, April–March for India).

Leave approval status

Status flow:

- **Open** — pending manager
- **Approved** — manager approved, leave granted

- **Rejected** — manager declined (with reason)
- **Cancelled** — you cancelled before approval (allowed any time before approval)

You'll see an email / app notification when status changes.

Leave types (India defaults)

Leave Type	Earn rate	Max carry forward	Notes
Casual Leave (CL)	12/year	0 (lapses)	Short personal leave, 3 days at a time max
Sick Leave (SL)	12/year	0 (lapses)	Medical certificate required for >2 consecutive days
Earned Leave (EL)	1.5/month	up to 30 days	Vacation-style, can encash on separation
Maternity Leave	26 weeks	NA	As per India law
Paternity Leave	2 weeks	NA	For biological fathers
Compensatory Off (Comp-Off)	earned	30 days	When you work on a holiday/week-off
Leave Without Pay (LWP)	unlimited	NA	Unpaid leave — needs MD approval

Encashment: Earned Leave can be encashed at separation or once per year (per policy). Payroll handles.

Payslips

A **payslip** (Salary Slip) is your monthly pay statement — earnings + deductions + net pay.

Viewing your monthly payslip

1. Human Resources → Salary Slip → filter by your name + month.
2. The latest payslip appears at top.
3. Click to open full view.

Downloading / printing

1. Open a payslip.
2. Top-right → **Print** (or PDF).
3. Choose **Print** (sends to printer) or **PDF** (downloads).

The PDF uses Haritha Hospitals letter head and shows the salary components table.

Understanding the components

Typical payslip structure:

Earnings:

- **Basic** — fixed, ~50% of Gross
- **HRA (House Rent Allowance)** — ~50% of Basic
- **Conveyance Allowance** — fixed

- **Medical Allowance** — fixed
- **Special Allowance** — variable (balances CTC)
- **Other Allowances** — custom if any

Deductions:

- **PF (Provident Fund)** — 12% of Basic (employee share)
- **ESI** — 0.75% of Gross (if applicable)
- **Professional Tax** — state-specific (e.g. ₹200/month for Karnataka)
- **Income Tax (TDS)** — monthly TDS as per slab
- **Loan Recovery** — if any salary advance
- **LWP Deduction** — unpaid leave days

Net Pay = Gross - Deductions.

Question about a deduction? Email payroll. Your payslip shows the contact at bottom.

Holidays

The **Holiday List** shows gazetted holidays, festival holidays, and weekly offs.

Viewing the holiday list

1. Human Resources → Holiday List → open “Haritha Hospitals Holiday List” (or your department’s).
2. List view shows date, day, holiday name, weekly-off flag.
3. Click any row for details.

Notifications

- Holiday list is updated once a year (Jan) by HR.
- You’re notified 7 days before each holiday via app/email.
- For weekly offs (typically Sunday), they appear on every Sunday with a “Weekly Off” label.

Working on a holiday? You earn **Comp-Off**. Submit attendance normally, HR converts it post-facto.

Common tasks (quick reference)

Task	Path	Tip
View my profile	Avatar → My Profile	Edit phone/address yourself
View my roster	/hr/roster	Default = current week
Check-in (web)	HR → Attendance → New	Only when mobile fails
Check-in (mobile)	Frappe HRMS app	GPS + timestamp
Apply for leave	HR → Leave Application → New	Manager notified instantly
View leave balance	My Profile → Leave section	Resets yearly
View payslip	HR → Salary Slip	PDF from top-right
View holiday list	HR → Holiday List	Updated Jan every year

Task	Path	Tip
Request attendance correction	HR → Attendance Request	Within 7 days = mgr; 30 days = HR
Update my contact info	My Profile → edit fields	Save changes; HR auto-notified
Find a colleague's email	Search bar → type name	Click contact card

Reporting issues

When something doesn't work, who to ask depends on the type:

What to report to HR

- Wrong data on your profile (salary, designation, date of joining)
- Leave balance discrepancy
- Payslip calculation error
- Holiday list missing an entry
- Cannot find your name in the system
- Manager change / reporting chain issue

What to report to IT / Admin

- Cannot login (password reset not arriving, account locked)
- Page won't load / slow performance
- Browser error / 500 page
- Mobile app not connecting
- Roster page blank or wrong date
- Check-in not getting recorded
- Any "Server Error" or "Permission Denied" message

Screenshot guidelines

A good screenshot saves a roundtrip. Include:

1. **The full browser window** (not just the error)
2. **The URL bar** (so we can see the page)
3. **The timestamp** (right side of taskbar — Windows: Win+Shift+S, Mac: Cmd+Shift+4)
4. **What you clicked before the error**

How to capture on Windows: Win + Shift + S → pick Rectangular Snip → drag the area → screenshot saves to clipboard.

How to capture on Mac: Cmd + Shift + 4 → drag area → file saves to Desktop.

How to capture on mobile (Android): Power + Volume Down.

How to capture on mobile (iOS): Side button + Volume Up.

Contact info placeholder

- **HR Helpdesk:** hr-helpdesk@harithahospitals.in / +91-XXX-XXXXXXX (Mon-Fri, 09:00-17:00 IST)

- **IT Helpdesk:** it-helpdesk@harithahospitals.in / +91-XXX-XXXXXXX (24×7 for emergencies)
- **Payroll queries:** payroll@harithahospitals.in
- **Admin / Venkat:** for system-wide issues (your HR will route)

Severity matters. “Cannot login” = critical (call). “Holiday list missing one entry” = low (email).

FAQ

Q: I forgot my password and the reset email isn't coming. A: Try the reset again (link expires in 15 min, check spam). If still nothing after 2 tries, call IT — they can issue a one-time password.

Q: My roster shows me on shift but I wasn't scheduled. What do I do? A: Take a screenshot of the roster, then message your manager. The roster is the source of truth — but if there's an error, manager reassigns and the system updates within minutes.

Q: I applied for leave but my manager says they didn't get notified. A: Open the Leave Application, check the **To-Do** at top — it shows “Assigned to ”. If the assignee is wrong, ask HR to fix your reporting chain.

Q: My payslip shows wrong PF deduction. A: PF is fixed at 12% of Basic. If Basic itself looks wrong, that's a Salary Structure issue — payroll team fixes (you cannot edit). Email payroll with the payslip month + your employee ID.

Q: Can I apply for leave in advance? Like 6 months from now? A: Yes. There's no advance limit, but leave is only “Approved” once your manager clicks Approve. Submitting early helps planning.

Q: What if I work on a Sunday / holiday? A: Submit attendance normally. HR converts the working day to a Comp-Off credit. You can then apply for Comp-Off later.

Q: My check-in via mobile shows wrong time. A: Check phone's auto-time setting (must be on, set to “Network-provided”). The HRMS app uses phone time — if your phone clock is off, your check-in is off.

Q: Can I see other employees' salaries? A: No. Salary data is restricted to your own record, your manager (aggregate), HR, and payroll. Privacy is enforced via permission rules.

Q: I resigned. When does my last payslip come? A: Full & Final Settlement (F&F) payslip comes within 30–45 days of last working day. Includes pro-rated salary + leave encashment – notice period recovery – any dues.

Q: The system is slow today. Is it just me? A: Check with a colleague first. If everyone is slow, IT is probably already on it (see Daily Ops checks). If it's just you, try a different browser / clear cache.
